Annual Infrastructure Funding Statement

for

Community Infrastructure Levy and Section 106

Reporting Period:

From 01 April 2020 to 31 March 2021

Introduction

Charging authorities are required to produce an Infrastructure Funding Statement (IFS) as a result of recent changes to the Community Infrastructure Levy Regulations.

The IFS is an annual report that will set out details about planning obligation receipts and anticipated expenditure.

This report covers the period between 1 April 2020 to 31 March 2021.

The report is split into three sections;

Community Infrastructure Levy (CIL) Matters

This section details the collection and expenditure of CIL funds prior to and during the reporting period.

CIL is a charge levied by local authorities on new development in their area. It is an important tool to use to help deliver the strategic infrastructure needed to support development in the area.

The Levy only applies in areas where a local authority has consulted on and approved, a charging schedule which sets out its levy rates. [Dacorum Borough Council's charging schedule](#) has been in place since July 2015.

The Council has taken the decision to defer any spending of CIL until the Infrastructure Development Plan, which will support the New Local Plan, has been completed. This will enable any spending to be focused on key infrastructure needs that will unlock potential growth.

Section 106 (S106) Matters

This section details the collection and expenditure of S106 funds prior to and during the reporting period.

S106 agreements assist in mitigating the impact of development to make it acceptable in planning terms. The obligations within a S106 must meet three legal tests;

- Necessary to make the development acceptable in planning terms;
- Directly related to the development; and
- Fairly and reasonably related in scale and kind to the development.

Whereas CIL funds can be spent on strategic infrastructure, S106 obligations are specific to the locality of the development.

Hertfordshire County Council obligations are often included within the S106 agreement and will be reporting separately on S106 obligations that have been paid or are due to them.

The Infrastructure List

Changes to the Community Infrastructure Levy Regulations 2010 in September 2019 removed the need for Councils to publish a Regulation 123 list, detailing infrastructure items that would be funded either partly or wholly through CIL. This section of the IFS will instead outline priorities for the future year.

Community Infrastructure Levy Regulations (2019 Amendment) Regulation 121A

The Infrastructure List

A statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by CIL.

A report to Cabinet in November 2016 detailed the following themes that the Infrastructure Advisory Group identified as priorities for funding:

- Transport Infrastructure
- Infrastructure for East Hemel Hempstead

The Council is currently preparing its revised Infrastructure Delivery Plan (IDP) alongside the revised new Local Plan. When completed the IDP will provide a more detailed list of infrastructure priorities which will require funding, this will be reflected in future updates to the Infrastructure Funding Statement.
